INSTITUTIONAL AND FINANCIAL ASSISTANCE INFORMATION FOR STUDENTS

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within 30 days of their 18th birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution. Instructions on how to obtain your proof of registration are below.

Proof of Registration

If you are a male between the ages of 18 and 25, you are required to register with the Selective Service System. Your status with the Selective Service is checked prior to determining financial aid eligibility. If registration with the Selective Service cannot be confirmed, you must submit proof of registration or, if exempt from the Selective Service, documented proof of exemption.

Acceptable proof of Selective Service registration includes:

- A printout from the Selective Service website confirming registration
- Selective Service registration card
- DD Form 214

To register online or confirm your registration, visit the [Selective Service System](#).

Undocumented Males

If you are a male between the ages of 18 and 25, you are required to register with the Selective Service System (SSS) before receiving state financial aid. The Selective Service does not share your immigration status. If you are not registered, you may do so by checking the "Register me" box, question 23a, in the online 2015-16 California Dream Act Application and the California Student Aid Commission will send your registration information to the U.S. Selective Service through a secure electronic data exchange.

The registration process may also be completed by using a Selective Service registration form available at any U.S. post office or by printing the Selective Service Form. Once you complete the form (follow the instructions on the second page or on the back), sign it (leave the space for your Social Security number blank) and mail it to the Selective Service System address that is on the form.

Whichever way you register, you will receive a registration acknowledgment card within approximately 30 to 90 days. Keep the document in a safe place as proof of registration and submit a copy to the Financial Aid & Scholarship Department. Please note that the Selective Service does not collect any information that would indicate whether you are undocumented.
